Why use SHARE NOW for Business?

It's the best way to drive. With our free-floating car sharing service, you don't have to buy or lease a car. Our premium cars are available around every street corner. Whether you need to rent a car for 1 minute or 30 days, you can get going with just one app. With our SHARE NOW for Business product, we offer you and your company an individual and flexible way to organize all business trips. SHARE NOW is the first provider that introduced a monthly discount model for the B2B sector. With the Corporate Pass, corporate customers can save up to 50 percent on the regular price per minute. The Pass25 can be used for 19.99 euros per month and per employee, the Pass50 for 89.99 euros.
